

Waste Giant | *September 2012*

Marlow acquired various assets of Waste Giant through its portfolio company Wasteman.

“Marlow, through its portfolio company Wasteman Holdings, has entered into a series of transactions with Waste Giant, a supplier of commercial and industrial waste solutions in South Africa, to acquire certain assets of Waste Giant. The transaction gives Wasteman immediate strategic benefits through the opportunity to develop waste treatment assets in South Africa’s most economically active province, to gain synergies from an expanded Mining Services Division, and to expand its fleet and specialized equipment.”
